

**Form Area North of City Rich in County's Historical Past**

There is something in the air here, in about 11 miles northwest of Chillicothe in Lawrence County. The air, and more to the point, the soil, is rich in history. The soil here did not get its name until they have been in the area for as long as 100 years.

It was this rich soil that made the area the center of the county, and with the industry of the day, it was the center of the county. The people here were engaged in the same kind of work that the people here were engaged in. The soil here is rich in history, and the people here were engaged in the same kind of work that the people here were engaged in.

**RECALLED BY BRUCE TRENDS, TOLD BY THE GRAND FATHER OF THE COUNTY, THE HISTORY OF THE AREA IS RICH IN HISTORY. THE HISTORY OF THE AREA IS RICH IN HISTORY. THE HISTORY OF THE AREA IS RICH IN HISTORY.**

**Sliver of W. W. A. Miner's Home from Australia**

Lawrence County, Mo., has a sliver of a home that was built in Australia. The sliver is a piece of the home that was built in Australia. The sliver is a piece of the home that was built in Australia.
