1
Dear Cousin Cora - Was glad to get your letters and very sorry I have delayed writing to you. But we are still remodeling our house and everything is hellam around here plus my ill health. [up one day down the next] plus having to Cook for two hunfry men while they work on the house plus other housework etc. I dont have to tell you that womans work is never done.

I will first answer your questions about Arlee, the dearest nephew one could wish for I have made many trips with my sister, who is his mother, and Arlee in his motor home doing Genealogical Research and enjoyed it all immensely. We collected a lot of data on Coxs and Allied families in Tenn. Ark. Miss. Ky. S. C. Ga. etc etc - N.C. etc

Arlee first started researching Cox, got me interested and I had 4 different books ready for the publisher when our house burned in 1966 and I lost it all.

In the meantime Arlee's research had come to a temporary halt and when he did start again it was on the Gouvans and I had the Cox part practically to myself with some help from him of course, ~~the~~ Arlee is a very thorough researcher and I think he

peaked up every Gowan that was ever born.

He finally exhausted that subject [I hope]
Now he is working on the Husseys who
as you know are our early forebears.

He is just as thorough on the Husseys
and has sent me reams of them. He
is just now getting down to the Coys and
as he has either misplaced or forgotten some
of the early ones. I have been able to
straighten him out on a few.

Arlee and I don't see eye to eye on some
of the Coy info that other people have
but I am confident that when he does
"get it all together" it will be correct
I keep urging him to hurry on the Coys
while I am still here. As I want to
see a copy when and if he ever gets it
finished. Arlee's address is

Arlee C. Gowan ph 806-795-8758
5708 Gary Ave
Lubbock Texas 79413

Billie Price lives in Burnet County and
works for the Burnet County Library [or dist]
her address is Bertram Texas. 78605
That's all the address I have on her but she has
always gotten my letters. Billie is a very
dear Cousin and I love her so much.

but she just will not answer my letters. She has sent me some material and she and husband Raymond used to visit us about twice a year. They also have a mother home. I haven't heard from her in some months when she wrote that her brother Mike was in hospital with Cancer.

We thought of going down but have been so tied up since we moved. We haven't.

About Stanley Shattles, Robert D. Coy, D. A. Richardson, Mrs Eric Deay, Willard C. Heiss, I do not have their address perhaps Arlee can help you on those

James Wilson Coy, our Cousin, is deceased

also Otto Arlee Stewart - Mrs T. D. Owens, and Aunt Hulda Coy Howell [my Dad's sister]

Mrs Elizabeth Coy Robinson, once lived in Chico Texas, but she was quite old then and I feel sure she is now dead. Anyway, she was a descendant on my husband's Coy side [which were related to us several generations back]

Roberta McCormick Smith resides some where around Burnet Co. but I don't have her address. You probably know that she was

(Over) a desc. of Amy Coy Smart - [my G. Dad's sister]

His branch of Coys settled in Bell Co + are related to us -
branch of Coys other than what I already had.

Stanley could not help me on our

All I know about Mrs Emma Norman is that she once lived in Bell Co. and helped immensely in doing research for Stanley, M. Coy who wrote the book on his branch of Coys. I have his book but the only mention of our immediate Coy family is what I sent him. You might be able to find his second book in the Bennett Library or elsewhere. It is not much different than the first one he published -

It seems we are the only Coy descendants that are researching our Coy line - I feel that you could probably get more info. from Arden than any one else. He is just now getting down to the "ditty, ditty" of our recent Coy line. And if he ever gets it all together it will be some book. I told him to forget "those Hersey's" and concentrate on Coys for awhile. Ha - So guess you and I will have to keep prodding him -

See I wish I could meet you - you know I have never met a Coy yet that I didn't like. Makes me proud to be one. Best of Luck. And keep digging,

My Very Best Wishes Your Cousin
Nora.
